- Grant Funding Policy
- Managing Sickness Policy

The Committee reviewed all the policies and made some changes as detailed in the summary attached to these minutes. It was resolved to recommend adoption of these policies to the Parish Council, resolved by Cllr Rob Veck, seconded by Cllr Richard Izard and carried.

P 24/20 TO UPDATE THE COMMITTEE ON THE PROGRESS OF THE COUNCIL MEETING THE WEB CONTENT ACCESSIBILITY GUIDELINES FOR THE PUBLIC SECTOR

The Clerk reported that the Assistant Clerk has made all the required changes to the Parish Council website to meet the deadline to achieve Website Content Accessibility Guidelines (WCAG) 2.1 AA rating. This rating is required in the Public Sector Bodies Accessibility regulations.

An Accessibility Policy Statement is on the website as is Accessible Documents Statement. Our documents are required to be displayed in an accessible format and the Clerk and Assist Clerk are attending a virtual course with the Society of Local Councils on 17th November to learn how to convert them / prepare them in an accessible / screen reader format.

P 25/20 **TO CONSIDER THE REQUIREMENT FOR A TEMPORARY CONTRACT FOR DATA INPUT AND RECOMMEND TO THE PARISH COUNCIL FOR APPROVAL**

The Council has purchase parish online which is a digital mapping system. Parish online has pre-loaded “layers” which will enable the production of a variety of maps which will show parish boundaries, addresses, listed buildings, business sites and more.

It has a measuring tool to measure specific boundaries or areas.

It can create permanent, informative Map Layers for example to highlight all land that is owned by the Parish Council.

It can create an asset register. Once Assets are loaded, each asset has text fields to prompt you to add essential information, upload documents, pictures and history on condition and maintenance so that a digital history is always available online.

Sections of Parish online can be made into publicly accessible maps.

The first task is to load the assets online with pictures and information in relation to the supplier, purchase price and any relevant maintenance. This task is expected to take between 40-60 hours to complete. Once completed new assets or maintenance can be added at month end when invoices are processed or when minutes are agreed.

This task was ear marked by the Clerk for a year 10 Kings School work experience in May 2020. Due to Covid, all work experience was cancelled as year 11 were working from home on course work.

The Clerk feels that after some initial training this is a data input task. The Clerk feels that neither the Clerk or Asst Clerk currently has the capacity to fulfil this project without overtime. Given the hourly rate of the current employees, and the relatively low skill required after initial training, the Clerk is recommending that this one-off piece of work is completed by a temporary contract. However, due to the Coronavirus restrictions, employing a temporary contractor, outside of a household bubble is not possible.

The Clerk is suggesting that this work is given to her year 11 daughter as a one-off piece of work on a temporary contract. This can be completed over the weekend as paid employment with support and training given in the Clerks own time. This is the most cost effective and efficient way of completing the task. The minimum wage for an employee of this age is £4.55 per hour.

Councillors considered the options of completing this project and agreed that it would be in the best interest of the Council to get this project moving. Given the restrictions of Covid, it was felt that a temporary contract using a person in the Clerks bubble was a sensible cost-effective solution and that it should be considered by the Full Council at the next meeting. Proposed by Cllr Alex Loughran, seconded by Cllr Rob Veck and carried.

P 26/20 **AGREE THE AGENDA ITEMS FOR THE NEXT MEETING IN ADDITION TO PROPOSED ITEMS BELOW**

- **TREE PLANTING POLICY**
- **EMERGENCY PLANNING**
